## INSURANCE OFFICES

**WISCONSIN**
**Home Insurance Office,**
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 20, 1855.
Insurance effected upon Dwellings, Houses, Stores and other Buildings, Household Furniture, Merchandise and other property, against
LOSS OR DAMAGE BY FIRE.
This is a new Company, organized [illegible] last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either fire or Marine risks; but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the business public has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual system, in one Company.
This Company commenced business with a capital of $50,000, and have a ready taken upwards of 450 policies; and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.
The recent failures of several of the old *Stock Companies*, among the most prominent of which are the Protection and Columbus [illegible]. It is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the Stock plan of insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.
As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks, and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk, in Villages, within a circle of 4 m rods, [illegible] which of course will prevent very great loss at one fire.
Applications for Insurance, respectfully solicited.
Agents wanted for the above Company.

**Highly Important to Farmers.**
The only Exclusive Farmers' Insurance Company in the West.
**THE MADISON MUTUAL,**
Located at Madison, Wisconsin.
This company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.
All losses promptly paid at the office as soon as proof is made thereon.
We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, and your own of the same class, and all will be on an equal footing.
Experience has shown, that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY ITSELF ALONE.
Farmers, look to your own interest, and insure in a Farmers' Company.
We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.
The best of references given as to the responsibility of the Company.

**FIRE INSURANCE COMPANY.**
Office in Martin's Block, Milwaukee.
Capital over $165,000—in Cash and Premium Notes.
This Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last two years, this Company have issued 2800 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

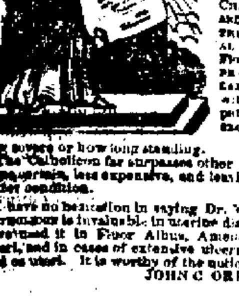
**DR. J. B. MARCHISI'S**
**CELEBRATED CATHOLICON,**
*For the Relief and Cure of Suffering Females.*



IT STANDS PREEMINENT for its curative powers in all the diseases for which it is recommended usually called
*Female Complaints.*
Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites;—Chronic Inflammation, and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.
The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.
I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.
JOHN C. ORRICK, M. D.,
Baltimore, Md.
The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and that one nothing will help.
Truly Yours,
WM. LAIRD HAZLETT, M. D.,
July 6th, 1854 New Philadelphia, Ohio.
I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the uterus [illegible].
D. T. FOOTE, M. D.,

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the happy official results of its use, together with letters from highly experienced Physicians, who have used it in their practice and speak from their own observations.

IMPORTANT TO

**Wholesale Grocers AND TEA DEALERS.**

JAMES KYLE, 114 Warren St., New York, furnishes to the trade all sizes of plain and fancy colored Tea Caddies, holding from 2 to 60 lbs., labelled fac simile of the latest cargoes of green and black Teas, having every appearance of original packages; and being made neat and light, and so that the smaller ones will nest in the larger ones, can be transported to any part of the country at a small expense. Merchants from the South and West would find the plan of putting up Teas at home much cheaper, and more satisfactory, than to have them re-packed in New York; and extra fine Teas put up in 6, 8, 10 and 12 lb packages, will sell more readily, and at a better price, than by the chest. Fancy painted, lacquered and gilded Caddies, and Chinese Images, beautiful for window show, are also furnished. Dealers will please call and examine as soon as they arrive in the city, that time may be had to get them up to order, in time to ship with other goods. A List of Prices will be sent to any address, by mail, that may desire it.

## INSURANCE OFFICES

**WISCONSIN**
**Home Insurance Office,**
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 6, 1855.

INSURANCE EFFECTED UPON DWELLING HOUSES, Stores and other Buildings, Household Furniture, Merchandize and other property, against
LOSS OR DAMAGE BY FIRE.

This is a new Company, organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks; but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the insuring Public, has induced the Directors to make it a purely Mutual Company. [illegible] this it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual system in one Company.

This Company commenced business with a capital of $50,000, and have already issued upwards of 350 policies; and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the [illegible] and Columbus [illegible] it is believed [illegible] business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurers [illegible] Stock plan of insurance, and have induced them to become satisfied the only secure and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks, and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk, in Village, within a circle of 4 rods diameter, which of course will prevent very great loss at one fire.

Applications for Insurance, respectfully solicited.

### Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

**THE MADISON MUTUAL,**
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereon.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than city, &c., consequently you will have no losses, and pay for own of the same class, and all will be on an equal footing.

Experience has shown, that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the *last fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 3000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

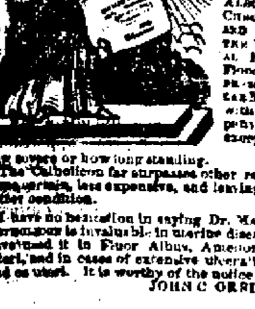
**DR. J. B. MARCHISI'S**
**CELEBRATED CATHOLICON,**
*For the Relief and Cure of Suffering Femal[es].*



IT STANDS PREeminent for its curative powers in all the diseases for which it is recommended, usually called

*Female Complaints.*

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites; CHRONIC INFLAMMATION, AND ULCERATION OF THE WOMB; INCIDENTAL HÆMORRHAGE, or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.
JOHN C. ORRICK, M. D.,

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and that one nothing will help.
Truly Yours,
WM. LAIRD HAZLETT, M. D.,
July 6th, 1854 New Philadelphia, Ohio.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the uterine organs.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use together with letters from highly experienced Physicians, who have used it in their practice and speak from their own observations.

Correspondence of the Sentinel.

### Galena—Dunlieth—Illinois Central R. R.—Chicago.

Chicago, May 31, 1855.

Editors Sentinel:—Since I last wrote you, I have been on a trip to the Mississippi by way of Galena, Dunleith, Dubuque &c.

There is nothing worthy of especial note. The towns along the railroad bear evidence of thrift and prosperity—of rapid growth; which is the effect of the construction of railroads. Galena is one of the oldest towns in the north-west, and from its having long been the emporium of the lead trade, it is also one of the richest. A large amount of steamboat stock is owned here, and lines of packets are running daily north and south. The mineral trade is still large, and constitutes an important source of wealth.

In the country the crops look luxuriant and promising. The wheat is coming on finely, and the farmers are busily engaged in putting in their spring crops.

Dunleith is an embryo town on the Mississippi, opposite Dubuque, and seventeen miles from Galena. It is the north-western terminus of the Illinois Central railroad.

By the way, I notice that one of the local papers takes exceptions to my remarks that the Central, notwithstanding the grant of lands, is not to be so great a speculation after all. Permit me to make a few figures, and then judge.—There have already been two loans, one of $17,000,000, at 7 per cent. having twenty years to run from the 1st of April, 1855. The second of $3,000,000 at 7 per cent. payable in 1860,—but which will have to be renewed. There has also been paid in on the stock $2,000,000. This makes an aggregate of $22,000,000. The road is not yet completed, by a considerable. There are one hundred miles on the Chicago Branch, and 17 between Galena and Dunleith, yet to be finished, and nearly the whole line to be ballasted, rolling stock to be purchased, station houses to built, &c., which, together with the present floating debt, will require another issue of bonds of not less than $4,000,000. Here, then, we have a grand aggregate of $26,000,000. Let us sum up.

| | |
|---|---|
| Annual interest on $17,000,000, | $1,190,000 |
| " " " 3,000,000, | 210,000 |
| On $2,000,000 paid in | 140,000 |
| On $4,000,000 to be borrowed, | 280,000 |
| Expenses other than operating road, | 75,000 |
| Total annual payment, | $1,895,000 |

Now for the income. It is a high estimate to put down the average gross receipts of the road for the next ten years at $2,000,000 per annum. But we will take this as our basis. Deduct 50 per cent. for operating expenses, and we have $1,000,000 left. From this we must deduct 7 per cent. on gross receipts going to the state, which leaves net $960,000—or $9,600,000 for the ten years. The expenses for interest, land Department, &c., as we have seen, amount to $1,895,000 per annum, or $18,950,000 for ten years. The account then stands:

| | |
|---|---|
| Outgoes (ten years) | $18,950,000 |
| Net income, | 9,600,000 |
| Deficient, | $9,350,000 |

We may make a liberal allowance of $2,000,000, for interest received on account of land sales and we have $7,350,000 deficit left. The footings up are therefore as follows:

| | |
|---|---|
| Loans, &c., | $26,000,000 |
| Deficit in ten years, | 7,350,000 |
| Total, | $33,350,000 |

But this deficit will incur interest yearly, and will extend through the twenty years during which the loan runs. The whole cost of the road before everything is paid up, may safely be set down at $40,000,000.

The lands donated amount to 2,500,000 acres. Of these 200,000 have to be, or have been sold, to those having pre-emption claims, at $2,50 per acre. Should the balance sell at $10 average the whole would bring $23,500,000; leaving a cash outgo for the construction of the road, of about $17,000,000—but which, in my opinion, will reach nearer $20,000,000. But will the lands sell at an average of ten dollars per acre? The United States still own 300,000 acres of land along the line of the road, and in the state at least 3,000,000 acres on sale at $1,25 and $2,50 per acre. And then, the new bounty land bill will interfere with sales for many years to come.

And under the present management there is a system of extravagance in expenditure, which would not be tolerated had the road fallen into competent hands.

It has been raining here for several days, and Chicago is indeed a large mud-hole. It is almost impossible to pass through some of the streets with wagons. The miserable policy of planking is manifest on such occasions.

Since the first of May, I notice quite a large number of "To Rents," in most of the streets—the legitimate result of landlord Shylocking, for which this city is famous.

Cholera on the River.—We learn from the Dubuque Observer, that this scourge has appeared among the emigrant passengers on the Upper Mississippi. On Monday last the steamer Montauk buried seven of her passengers, victims of cholera, between Keokuk and Dubuque.—There were, we understand, seventeen cases on the Royal Arch, during her upward trip to St. Paul.

Will our Common Council take warning, and provide for the organization of the Board of Health to-night?

Judge Cole.—A correspondent of the Beloit Journal writing from Keokuk, Iowa, speaks thus of the recent Judicial Election in this State:

I am very much gratified at the election of Orsamus Cole as Supreme Judge. I suppose it is conceded that Crawford made a respectable Judge, and a poorer man could have been found for his place. But I have an especial esteem for Mr. Cole. He is a good lawyer, a man of the most inflexible uprightness, of cultivated and manly tone of mind.

And I am glad to see men of such character employed in the public service. I am rejoiced to see such men promoted, instead of mere scheming politicians, paltry wire-workers, who have nothing but party faithfulness and charges for dirty work done, to recommend them. And besides, as much as any thing else, I am pleased at the election of Mr. Cole on account of the auspices of the act,—the spirit which governed the campaign.

What Folks think of Milwaukee.—The editor of the Madison Patriot, who passed through our city, a few days since, on his way East, writes back a letter from Detroit, from which we take the following:

I noticed, in passing through Milwaukee, that most of the burnt district bordering on East Water St., has been rebuilt, with costly and elegant buildings. This fact shows plenty of vitality in the city of bricks for all practical purposes. I always did admire the unbounded enterprise and public spiritedness of our Milwaukee neighbors. A city of 40,000 inhabitants, whose birth dates only about 15 years back, has no small pretension to go-a-headitiveness. Let her prosper and grow rich as ancient Carthage, but avoid the consequences of an attack upon Rome. To the rapid strides Milwaukee has made, in private enterprise and public improvements, within the last ten years, the West even, presents no parallel.

The Badger Pump.—The Detroit Tribune of the 2nd instant says:

We examined yesterday Carpenter's new pump. It is one of the most simple and effective machines we ever saw, and must inevitably supersede other pumps for every kind of use. An accurate description of it is given on our second page. It is a real curiosity.

Sam Wanted!—The aniversary of landing of a lot of foreigners at Jamestown, in Virginia, is to be extensively celebrated in that state on the 13th of May, only a few days before the election.

For Sault Ste. Marie.—The steamer North Star is to leave Cleveland this evening for Sault Ste. Marie, connecting with the propeller Manhattan on Lake Superior.

A Petition.—No less than 2500 women, of Newport, Ky., have petitioned the Common Council of that city, not to grant licenses to sell liquor.

Rail Road Combinations—Raising Fare.—The editor of the Madison Patriot, writing from Detroit, under date of May 1st, says:

All the Railroads have combined to raise the price of fare and freight. This caused steamboat owners to mature plans for a daily line of steamers around the lakes, until the Grand Haven road is completed, well knowing that those who are not in too great a hurry, will prefer a pleasant trip around the lakes, rather than submit to a too great combination tariff. Yankee spirit will have more than one string to the bow at any rate, and at last all things will be brought to a judicious level. It is estimated that the rise in railroad tariffs will bleed the West this year to the tune of one and a half million of dollars!

This raising of the fare on the Rail Roads will give the new Collingwood Line, just about to go into operation, a first-rate chance to secure a good share of the travel. Let them fix upon a moderate tariff of prices and their boats from this Lake will run full all the while.

Rum Afloat.—Capt. Hall, of the ship Natchez, at New Bedford, reports having spoken the British steamer Brisbane from Glasgow, 62 days, for Sydney, N. S. W., on the 25th ult., in lat. 6. S. lon. 34 40 W. Her captain had been drunk all the time since leaving port, had lost his reckoning, and the vessel had no steam up, and was drifting 10 or 15 miles to leeward every day.

Put Back.—The propeller Ogdensburg, which cleared for Oswego a week since, was turned back from Port Washington on Saturday, having burned out her flues. It look like very careless inspection by the government officers. She was brought back by the Prop. Prairie State, of the same line.

### Know Nothing State Council.

The Know Nothing State Council has been in session for the past two days at Harmony Hall in this city. Nearly two hundred delegates from various portions of the State, have been in attendance.

We understand they had a very stormy time yesterday afternoon. The Council is divided on the Jonathan and Sam question. The Jonathans, who were first started in this city by a gentleman who was a candidate for a high official position, at the late city election, appear to be in the ascendant.

The Sams are anti-foreign and anti-Catholic. The Jonathans are anti-slavery, but not against foreigners. They will admit all foreigners who disavow temporal allegiance to the Pope.

The Sams are backed up by Judge Douglas, who was yesterday visited by a large number of the members of the order of proslavery tendencies, who are delegates from the Southern part of the State. He evinces a great interest in the progress of Sam, on account of what that gentleman has already done in making Kansas a slave State.

The Jonathans, however are taking the lead in this city. Already large numbers of Germans, English, Scotch and Irish have joined them, and they promised to swallow up Sam completely, who is now chiefly supported by old Hunker Whigs, old Hunker Democrats, and old fogies generally, with Judge Douglas to cement the whole if possible into one mass in order to revenge himself upon the foreigners, who are instinctively opposed to his pro-slavery principles, and who can never be got to sanction the iniquity of making slave States out of soil once consecrated to freedom.—[Chicago Democrat May 3rd.

Generous Fidelity.—Our readers generally know that last week was consumed the Railroad Bridge at Painesville, Ohio, which viaduct across the deep valley at that point, passes the immense travel and traffic of the South Shore line of Roads. The fire took place in the night. The Bridge was at points 80 feet high. While the vast crowd collected at the Depot was discussing and bewailing the calamity, a man engaged in gravelling the Road, named John Casement, hurriedly demanded a lantern. One was found and lighted, and snatched by Casement, who ran down the bank into the valley, and disappeared. He ran nearly a mile, to the short curve beyond the Eastern end of the ruined Bridge. There he took his stand, and emptying his pockets of letters, newspaper scraps, and other paper, he lighted them and waved them in the air. Casement knew that two freight trains were coming from the East. Soon their lanterns blazed on the track. He signalled them again with burning paper. The Engineers did not respond with their whistles. The man's paper was exhausted. With ready wit he drew a linen handkerchief from his pocket and set it ablaze and waved it. The Engineers saw the warning, and heeded it just in time to save their heavy trains from plunging off the 40-feet abutment, into dreadful ruin. Not to speak of the value of the human life saved by this act of generous fidelity to a Corporation, with which he was connected only as a gravel contractor, Casement rescued from instant destruction over $50,000 worth of property.

Brethren of the Press, pass John Casement around.—[Buffalo Democracy.

☞ New buildings are going up all over our city, and old ones are being removed to give place to other new ones.

The new School House, now being built at an expense to the city of $5,000, will be an ornament and a credit to our city.

The new brick Hotel which is being erected on the corner of Eighth street and New York Avenue, will be a substantial structure and an ornament to that pleasant portion of our city.

The city is growing apace, not rapidly, but steadily and permanently. Property is constantly advancing in price, and now is the time for capitalists to invest money, and double it in a short time. Every building in the city is occupied, and there is hardly a tenement to be had for either love or money. In a word, every thing betokens prosperity.—[Sheboygan Journal.

Growth of Whitewater.—Arrangements for the completion during this season of new stores, and nearly all of them three stories in height, have been made by Messrs. G. H. Smith and Co. C. E. Curtice, and Marsh and Co., Co., on Main St. and in the neighborhood of the Depot, Mr. Everts is putting up a frame store, and Mr. Thomas Webb has a large stone blacksmith shop under way, and we understand that Messrs. Hall and Co. intend to enlarge their building,—while out towards that region where the town and country blend, acres are fast changing into lots, and by about a weeks handling of the hammer and planes lots are transformed into dwellings and appurtenances.—[Whitewater Gazette.

Our Piers.—Our enterprising warehouse men have been busy repairing their respective Piers, and have them now as good as new, and ready for the summer's business. The storms of the last winter proved pretty severe on the piers, and all three of them were considerably damaged. But the proprietors were not men to suffer them long to remain in a dilapidated condition. They are probably now in as good condition for the shipping business as ever they were. We understand that the winter storms have considerably deepened the water around the piers.—Kenosha Telegraph.

Vessel Wrecked.—The schooner Saratoga, in attempting to make the piers in the heavy weather of Wednesday evening, went on to the beach north of the harbor, and being an old vessel, went to pieces rapidly. She was owned by Capt. Igo, her master, but he was not on her this trip, being at home sick. She was a fine vessel, and a crack sailer in her best days.—[Chicago Dem. Press, May 4.

An American Sentiment.—George Washington said:

"The bosom of America is open to receive, not only the opulent and respectable stranger, but the oppressed and persecuted of all nations and all religions, whom we shall welcome to a participation in all rights and privileges."

It is well for Washigton that he did not live till 1855. Such sentiments now, would have hung him in effigy.—[Albany Journal.

☞ We copy this week, from the Milwaukee Sentinel, the 8th letter of Volney French, Esq., of this city, now travelling in Europe. Mr. French writes a very readable account of the sights he sees, and the impressions they make upon him.—[Kenosha Telegraph.

This compliment is well deserved. The letters of Mr. French are graphic, original and interesting. We are glad too, to know that they are appreciated by our readers.

Tidal Phenomenon on the Lakes—Storm at Owen Sound.—A phenomenon similar to that which occurred on both sides of Lake Ontario on the 18th ult., took place on Lake Huron on the same day. The Owen Sound Comet, says:—"In this bay, the water rose about nine feet, and immediately fell ten feet below its usual level, so much so that the the bottom of the was dry enough to allow a man to cross to the Indian village."

The storm at Owen Sound on the day of this phenomenon was very severe. Vessels were broken from their moorings, piers were displaced, and twenty-five houses and barns were unroofed or blown down. Hail stones were picked up measuring from four to five inches in circumference.

Wheat.—On Saturday last Messrs Clark & Thomas paid $1,76 for a load of prime winter wheat, and $1,60 for a load of club and Rio Grande and spring. Mr. W. H. Allen, same day, paid $1,75 for a load of red and white winter wheat, and $1.60 for a load of club and Rio Grande spring. These are the highest prices ever paid in Beloit.—[Beloit Journal.

## CITY MATTERS.

Lumber for the Country.—Seven vessels were discharging lumber at the railroad dock on Saturday afternoon, and another one just hauling up into the Menomonee. The great demand for lumber in the country is at once an indication and the result of the great amount of building going on in every part of the interior of the State.

Another.—The schr. Hagar, another of our winter bound fleet, and which went into Beaver Harbor leaking, late last fall, and wintered among the Mormons, arrived on Saturday. She brings 150 tons iron for the Lake Shore R. R.

Wool Shipped.—The prop. Mayflower took on Saturday, 21,574 lbs. wool for Buffalo, from Wells & Hill, and the prop. Forest City 2000 lbs. from Wheeler & Co.

House at Auction.—Rooney sells this morning the house on Maine street, belonging to the estate of the late Thomas Burns.

U. S. Dist. Court.—The May term of this Court commences to-day.

Circuit Court.—The Circuit Court, Judge Hubbell presiding, commences its session this morning.

Up the River.—The large barque Great West, was towed up the river on Saturday morning, to discharge her deckload of shingles at Hibbard & Luce's dock. After getting through Walkers Pt. Bridge she touched ground when near Higby's warehouse on the west side, and was obliged to discharge the deck load at that dock.

The Rush of Travel.—Three Steamboats, the Cleveland, Arctic and Pacific, arrived here from Chicago, on Friday, and two, the Cleveland and Traveller, on Saturday, all loaded down with passengers, luggage and freight. Between 800 and 1000 persons must have been landed at our port during the two days.

Pianos.—Prof. Hempsted.—We invite attention to the advertisement of Mr. Hempsted of the Pianos from celebrated Houses for which he is the agent. A house, now-a-days, is not a house without a piano, and it is well to know where one can get the best. No one can go astray when he calls on Mr. Hempsted for an instrument. He is an "institution" of the city, well established, and appreciated.

Railroad Appointment.—We are glad to learn that Mr. G. S. Merrill has been appointed Assistant Superintendent on the Milwaukee & Mississippi R. R.

Mr. Merrill has been until last season, upon the road from its opening. As a conductor, faithful, prompt, and courteous, he was very popular, and made many friends who will rejoice to see him in a more responsible situation.

Removal.—The Sabbath School Depository is removed to the corner of East Water and Michigan Street, 2d floor, where Mr. Vail, the agent of the American Sunday School Union, will be found ready to donate in part to the truly needy, and sell at catalogue prices to those who wish to purchase.

Brick.—See the card of Messrs Wilson & Besley, manufacturers of brick, in the 4th ward.—They will have their hands full of business during the coming season.

### Flanders vs. the M. & M. Railroad.

To the Editors of the Sentinel:

Perceiving in your paper a notice of the trial in the case of Flanders & Co., vs. the M. & M. Railroad Co., we wish to correct a wrong impression which such a notice was calculated to give. The substantial question at issue was the right of the company to exclude from the cars, agents of the plaintiffs, on account of their employment. The question of amount of damages was only incidental, and inasmuch as the two agents swore that when they went on to the cars it was without particular business for the plaintiffs, and with the simple design of returning, if not removed, the Court decided that we could recover only for the actual injury to our business, the remaining right being in the agents themselves. It will be seen (although our recollection of the facts differs from the witnesses mentioned) that the question of damages was somewhat narrowed down. Yet the decision was that the Company had committed a wrong to Flanders & Co.—had ejected their agents without right. If the small amount of the verdict affords a matter of consolation to the Company, it is that kind of pleasure which a man derives from an escape of just punishment, deserved by his conduct.—The jury (as we are informed by one of them) on the first ballot stood as follows—two for giving to the plaintiff $5000, two for giving $3000, two do $2000, and two for giving $1000—while four were for the defendants. The jury were out all night, and the result was produced by the desire not to have a disagreement for a second time, as strongly expressed by the Court, and counsel.—The verdict does carry costs, inasmuch as a Justice has no jurisdiction. For ourselves we can only say that the vindication of a right of vital importance to the public is ample satisfaction for all our trouble and expence in the premises.

A. C. Flanders.

His Councils votes he has to poll
Ere giving up Sebastopol!
Write off, Titoff, fiddle oddle lay,
You don't know what the Czar will say.

You don't know what L. N. will say?
Already at the Tuileries
There's chafing at these fooleries.
You're canny, Bourqueney, fiddle oddle lay,

Do all, Buol, fiddle oddle lay,
You don't know what your Court will say?
Acting frankly's worse than senna,
Rhubarb, jalap, to Vienna.
Do all, Buol, fiddle oddle lay,
You don't know what your Court will say.

All lies, Allies, fiddle oddle lay,
This is what Europe means to say.
Hang your higgling, hold your haggling;
Leave it to Canrobert and Raglan;
Juggling talk will not end such fray,
Ram your guns, and fire away!

"Nautical Magazine" for May. We have received the May number of this excellent monthly, published by Griffiths & Bates, 115 and 117 Nassau street, N. Y. It contains a vast amount of interesting and useful information for those who go down to the sea (or the lakes) in ships, and ought to be extensively circulated in our lake ports.

The Glover Rescue Case.—The News learns, doubtless "by authority," that in the case of S. M. Booth, discharged on Habeas Corpus from the custody of Sheriff Conover, a writ of error has issued out of the Supreme Court of the United States to the Supreme Court of this State.

Vessel Sale.—The barque Ocean Wave was sold a few days since by Julius White, Esq., of this city, to Mr. Cady, of Milwaukee, for $13,000.—[Chicago Democrat.

Look out for the Grapes!—The Detroit Advertiser says that a small steel-colored bug is busy eating into the buds of the grape vines in that vicinity.

Great Tr—Story.—The Manitowoc Tribune has the following:

Schr. Clipper City, Capt. Jos. Edwards Jr., owned by Platt & Bro., of this village, made the run from Chicago on her last trip in five hours.—The distance is 90 miles, and incredible as the statement may appear, we have implicit confidence in the veracity of our informants.

We are prepared to believe almost anything of the speed of the Clipper City, but as the distance from Chicago to Manitowoc is about 160 miles as the bird flies, we are afraid that our friends of the Tribune will have to add about 15 minutes to the time of the trip.

Mr. Editor:—The following Resolutions were presented and unanimously adopted at a meeting of the Reading Room Association, connected with Lawrence University, held on the evening of the 26th inst:

Resolved, That as members of the Reading Room Association, we feel deeply grateful to those Editors and Publishers, to whose liberality we are indebted to many for the valuable publications, which now grace the desks of our Reading Room, and we hereby tender them our sincere thanks.

Resolved, That our Corresponding Secretary be, and is hereby instructed, to forward a copy of this resolution to the offices of the several papers, a copy of which has been donated to this Association.

G. G. Dains,
Corresponding Secretary.

☞ The Buffalo Republic says a German citizen on Batavia street "caves in" to the requirements of the recently enacted law, by hanging his bar in black, on which is inscribed, "Nix lager bier." "De glory of Hans is debarted."

☞ The list of passengers by the steamship Pacific, as published in the New York Express for Wednesday last, contains, among other names, that of "The Honorable General Augustus Caesar Hannibal Dodge, Minister Plenipotentiary to the Court of her Catholic Majesty, Isabella II, Queen of Spain," &c.

Filibusterism Shocked.—The latest news from Havana is "stunner" for Young America. Commodore McAuley, whose guns were expected (by the mad-caps) to blow Spanish cruisers out of the Gulf, and knock the Morro into the middle of next week, was last seen tete-a-tete with General Concha, reviewing Spanish troops. The fair inference, if not the settled fact, is, that the gallant Commodore went out instructed to settle little matters of difference, and found no difficulty in doing so in a peaceable manner, which is far the best way for good Christians to deal, in an age of bibles, printing presses, and unexampled commercial enterprise. Peace, at any price, will be a bitter pill to the fellows who get up Park meetings; but war, short of the weightiest reasons, would be far more bitter, shameful and degrading to this nation.—[New York Mirror.

A Just Judge.—Hon. A. D. Smith, of Wisconsin, the Judge, upon whom we are in part dependant for that righteous decision of the Supreme Court of his State upon the Fugitive Slave Law, was in this city yesterday, looking well and hearty. As a history-maker, the Judge will be conspicuous in the future of this Republic, not that he will write a book, but that he will do what will make others write.—[Chicago Tribune, 2d inst.

An Outrage.—Mr. Sans has entered complaint against a set of rowdies, who, not long since, after singing, and otherwise making rowdyish demonstrations around his house while himself was absent from home, threw a large stone through a window into the room occupied by his wife, and a child in the cradle. The stone broke the window, made a hole through the curtain, and fell but a few inches from the head of the sleeping infant.

Mr. Sans has never injured his fellow citizens, nor spoken ill of any one to excite their feelings. He is a firm friend of the temperance cause, and this in him some of his countrymen condemn.—His influence is being felt among them in this city and vicinity.—[Watertown Chron.

☞ Richard Yates of San Francisco, formerly of Albany, where he was cashier of the State Bank, was found in his room, March 28th, dead, grasping a pistol, a ball from which had entered his brain. A letter from a brother in Albany was found upon his body, which enclosed a notice of an application for divorce upon the part of his wife, formerly Miss Margaret Mancius of Albany. What was the cause of domestic difficulties, is not known.

Entirely Cleared Out.—All the liquor shops of Beloit are closed, and our new supervisors are determined to grant no licenses during their term of office.—[Beloit Journal.

## DIED,

In this city this morning, of Consumption, Mr. Thomas C. Horner, in the 41st year of his age.

Mr. Horner was born in Princeton, N. J., July 3, 1814. He was the youngest of nine children only one a sister, survives him, five of them dying with the same dread disease that has taken our friend to an early grave.

In 1832, Mr. H. removed to Milwaukee, and in 1846 to this city, which has since been his home.—[Sheboygan Journal.

### MARINE INTELLIGENCE.

The Collingwood Line.—The Lady Elgin was to leave Buffalo on Saturday for this lake, and will take her place at at once in the Ontario & Simcoe R. R. Line.

The brig Kirk White cleared from Buffalo for this port on Wednesday last.

☞ Brig Acadia cleared from Oswego, April 30th with 146,179 feet Lumber, for D. McCollum, Milwaukee.

Down Freight.—The Michigan took out, on her down trip on Tuesday, 1031 bbls flour, 400 do fish, 184 hides, 110 bags potatoes, and a lot of miscellaneous freight. The most of the flour was sent to New York, and was from the mills of Cronkhite & Burdick of Neenah.—Green Bay Adv. 3d inst.

☞ The barque Badger State, Capt. Shores, from Milwaukee, passed down the river yesterday without stopping. The Badger State was the last sail vessel which passed through the straits of Mackinac last fall, and is the first to pass this spring. We believe she was loaded with grain from Milwaukee to Buffalo.—Detroit Free Press May 3d.

A Diversion.—The Oswego Times states that "considerable shipments of flour, grain, peas, &c., are being made north, since the opening of the Upper St. Lawrence. A cargo of 2,500 bbls of flour landed here, consigned to New York, has been countermanded, and is reshipped for Montreal. Other parcels of flour, wheat, corn and peas are being re-shiped for Eastern Canada and Northern New England, to go by the St. Lawrence, the Cape Vincent and Ogdensburg Railroads."

Entrance of the Harbor—Shoal Water.—One of the vessels which entered the harbor yesterday drawing seven and one-half feet water thumped her heel twice quite hard about 150 feet south of the end of the North Pier, the sea being heavy and the vessel a little by the stern. Other vessels drawing more water have passed in and out nearly the same course without touching. This argues the formation of a bar or shoal in the channel, which should be examined the first still day, and its position exactly located with a view to its removal if necessary.—Chicago Democrat Press.

Freights at Detroit.—There is nothing new to report in freights. The Dunkirk propellors are taking flour to Dunkirk, from whence it is taken to Buffalo by the State Line Railroad, at 40 cents from this port to Buffalo. Contracts have been made to deliver 250 tons of ashes in New York from this port via the New York and Erie Railroad, at $10 per ton. To Montreal we hear of some freights on flour being agreed for at 60 cents. To Ogdensburgh agreements have been made with the regular propeller line for second trip, for 75 cents on flour. The barque E. A. Rocloffson is loading with corn for Cape Vincent, but we have not yet heard of the rate.—Detroit Advertiser.

Salt Manufacture.—The Syracuse Journal of Monday says the Salt Manufacturers are getting ready for starting up their Blocks. Several Blocks will fire up today. At Salina, Syracuse and Geddes they cannot commence operations untill the canal is navigable, as the pumps are carried by water from the canal. The minimum price this season will be $1,30 per barrel.

## COMMERCIAL.

### THE MARKETS.

Office of the Daily Sentinel,
Milwaukee, May 7, 1855.

Rec'd by Mil. & Miss. R. R., May, 5:—246 bbls 118 sacks flour, 4956 bus wheat, 369 do potatoes, 16 do barley, 584 do oats, 292 do corn, 96 do rye, 20 bags corn meal, 4 kegs butter, 1459 lbs hides, 15 bbls eggs, 14 bbls hams, 12 bbls pork, 7 sheep.

Rec'd by Mil. & Wat. R. R:—174 bbls 22 sacks flour, 939 do wheat 837 do, potatoes, 30 do barley, 5 bbls oil, 11 hogs 2 cars do, 6 bbls eggs, 1000 lbs hides, 7 kegs, butter.

We note a decline on Saturday to some extent, from from previous rates. Flour was held at 9,00 for No. 1 with no transactions to our knowledge, though several buyers from the east were in the market "looking about." It is understood that no great portion of the produce in store here remains not drawn on at the East. Shipped on Saturday 5300 bbls.

Wheat—better receipts yesterday, but prices lower, and 1,42@1,50 was the average for spring wheat, winter selling at 1,60@1,65. We learn that about 40,00 bus already engaged to go to Cleveland.

Oats—in better supply, and not active, at 50a53c.

Rye 90c. Barley 1,00a1,02.

Potatoes declining rapidly, sales being made at 56a60c.

Freights.—The schrs. E. G. Gray, E. Cramer and Milwaukee Belle take wheat to Buffalo at 18c, and the schr. Melrose wheat to Oswego at the same figure. All of these are old charters.

### Oswego Market, April. 30.

There is still an active demand for flour and grain in the market. We hear of sales of 700 bbls flour at $9,75 @$10, 2s for Canadian.

We hear of sales of 3,500 bus Chicago wheat at $1.95 In corn we hear of a sale of 7,000 bus at 90c to arrive.

### Chicago Market—May 4.

Favorable news to Grain holders was brought by the Atlantic's arrival, and although money is extremely tight, and storage for Grain not to be had, there was a better feeling in the market to-day. A good inquiry was made for wheat in the afternoon, and a few thousand bushels changed hands in the forenoon, at $1 50 in store. Shippers were anxious to engage vessels, but unwilling to pay the freights asked, viz—16a17c for Corn to Buffalo. We heard of the schooner G. M. Chapman being chartered for wheat to Buffalo at 20c. A couple of Canadian steamers arrived in port to-day from Kingston, which we learn are to carry cargo of Grain to Quebec from here. About 50 bbls of Flour sold at $9 25, and 30 bbls of superfine brought $9, while $7 75 was paid for 20 bbls of prime.—Private dispatches from St. Louis represent a decline there in the price of Barley and other grain. Barley is somewhat dull here at $1,25 for extra. Oats have a better feeling, and go readily at 48c in warehouse.

The Government Stock Bank.—We learn that the whole amount of Government Stock Bank Note returns, to the Treasurer's office up to Saturday, was $95 210 showing an over issue of nearly sixty thousand dollars, for this institution, which was under the care of the late State Administration. What an honest Iago—Det. Adv.

### Galena—Dunleith—Illinois Central R. R.—Chicago.

Chicago, May 3J, 1855.

Editors Sentinel:—Since I last wrote you, I have been on a trip to the Mississippi by way of Galena, Dunleith, Dubuque &c.

*There is nothing worthy of especial note.* The towns along the railroad bear evidence of thrift and prosperity—of rapid growth; which is the effect of the construction of railroads. Galena is one of the oldest towns in the north-west, and from its having long been the emporium of the lead trade, it is also one of the richest. A large amount of steamboat stock is owned *here*, and lines of packets are running daily north and south. The mineral trade is still large, and constitutes an important source of wealth.

In the country the crops look luxuriant and promising. The wheat is coming on finely, and the farmers are busily engaged in putting in *their spring crops*.

Dunleith is an embryo town on the Mississippi, opposite Dubuque, and seventeen miles from Galena. It is the north-western terminus of the Illinois Central railroad.

By the way, I notice that one of the local papers takes exceptions to my remarks that the Central, notwithstanding the grant of lands, is not to be so great a speculation after all. Permit me to make a few figures, and then judge.—There have already been two loans, one of $17,000,000, at 7 per cent. having twenty years to run from the 1st of April, 1855. The second of $3,000,000 at 7 per cent. payable in 1860,—but which will have to be renewed. There has also been paid in on the stock $2,000,000. This makes an aggregate of $22,000,000. The road is not yet completed, by a considerable. There are one hundred miles on the Chicago Branch, and 17 between Galena and Dunleith, yet to be finished, and nearly the whole line to be ballasted, rolling stock to be purchased, station houses to built, &c., which, together with the present floating debt, will require another issue of bonds of not less than $4,000,000. Here, then, we have a grand aggregate of $26,000,000. Let us sum up.

| | |
|---|---|
| Annual interest on $17,000,000, | $1,190,000 |
| " " " 3,000,000, | 210,000 |
| On $2,000,000 paid in | 140,000 |
| On $4,000,000 to be borrowed, | 280,000 |
| Expenses other than operating road, | 75,000 |
| Total annual payment, | $1,895,000 |

Now for the income. It is a high estimate to put down the average gross receipts of the road for the next ten years at $2,000,000 per annum. But we will take this as our basis. Deduct 50 per cent. for operating expenses, and we have $1,000,000 left. From this we must deduct 7 per cent. on gross receipts going to the state, which leaves net $960,000—or $9,600,000 for the ten years. The expenses for interest, land Department, &c., as we have seen, amount to $1,895,000 per annum, or $18,950,000 for ten years. The account then stands:

| | |
|---|---|
| Outgoes (ten years) | $18,950,000 |
| Net income, | 9,600,000 |
| Deficient, | $9,350,000 |

We may make a liberal allowance of $2,000,000, for interest received on account of land sales and we have $7,350,000 deficit left. The footings up are therefore as follows:

| | |
|---|---|
| Loans, &c., | $26,000,000 |
| Deficit in ten years, | 7,350,000 |
| Total, | $33,350,000 |

But this deficit will incur interest yearly, and will extend through the twenty years during which the loan runs. The whole cost of the road before everything is paid up, may safely be set down at $40,000,000.

The lands donated amount to 2,500,000 acres. Of these 200,000 have to be, or have been sold, to those having pre-emption claims, at $2,50 per acre. Should the balance sell at $10 average the whole would bring $23,500,000; leaving a cash outgo for the construction of the road, of about $17,000,000—but which, in my opinion, will reach nearer $20,000,000. But will the lands sell at an average of ten dollars per acre? The United States still own 300,000 acres of land along the line of the road, and in the state at least 3,000,000 acres on sale at $1,25 and $2,50 per acre. And then, the new bounty land bill will interfere with sales for many years to come.

And under the present management there is a system of extravagance in expenditure, which would not be tolerated had the road fallen into competent hands.

It has been raining here for several days, and Chicago is indeed a *large mud-hole*. It is almost impossible to pass through some of the streets with wagons. The miserable policy of planking is manifest on such occasions.

Since the first of May, I notice quite a large number of "To Rents," in most of the streets.—the legitimate result of landlord Shylocking, for which this city is famous.

Cholera on the River.—We learn from the Dubuque *Observer*, that this scourge has appeared among the emigrant passengers on the Upper Mississippi. On Monday last the steamer *Montauk* buried seven of her passengers, victims of cholera, between Keokuk and Dubuque.—There were, we understand, seventeen cases on the *Royal Arch*, during her upward trip to St. Paul.

Will our Common Council take warning, and provide for the organization of the Board of Health *to-night?*

Judge Cole.—A correspondent of the Beloit *Journal* writing from Keokuk, Iowa, speaks thus of the recent Judicial Election in this State:

> I am very much gratified at the election of Orsamus Cole as Supreme Judge. I suppose it is conceded that Crawford made a respectable Judge, and a poorer man could have been found for his place. But I have an especial esteem for Mr. Cole. He is a good lawyer, a man of the most inflexible uprightness, of cultivated and manly tone of mind.
>
> And I am glad to see men of such character employed in the public service. I am rejoiced to see such men promoted, instead of mere scheming politicians, paltry wire-workers, who have nothing but party faithfulness and charges for dirty work done, to recommend them. And besides, as much as any thing else, I am pleased at the election of Mr. Cole on account of the auspices of the act,—the spirit which governed the campaign.

What Folks think of Milwaukee.—The editor of the Madison *Patriot*, who passed through our city, a few days since, on his way East, writes back a letter from Detroit, from which we take the following:

> I noticed, in passing through Milwaukee, that most of the burnt district bordering on East Water St., has been rebuilt, with costly and elegant buildings. This fact shows plenty of vitality in the city of bricks for all practical purposes. I always did admire the unbounded enterprise and public spiritedness of our Milwaukee neighbors. A city of 40,000 inhabitants, whose birth dates only about 15 years back, has no small pretension to go-a-headitiveness. Let her prosper and grow rich as ancient Carthage, but avoid the consequences of an attack upon Rome. To the rapid strides Milwaukee has made, in private enterprise and public improvements, within the last ten years, the West even, presents no parallel.

The Badger Pump.—The Detroit *Tribune* of the 2nd instant says:

> We examined yesterday Carpenter's new pump. It is one of the most simple and effective machines we ever saw, and must inevitably supersede other pumps for every kind of use. An accurate description of it is given on our second page. It is a real curiosity.

Sam Wanted!—The aniversary of landing of a lot of *foreigners* at Jamestown, in Virginia, is to be extensively celebrated in that state on the 13th of May, only a few days before the election.

For Sault Ste. Marie.—The steamer *North Star* is to leave Cleveland this evening for Sault Ste. Marie, connecting with the propeller *Manhattan* on Lake Superior.

A Petition.—No less than 2500 women, of Newport, Ky., have petitioned the Common Council of that city, not to grant licenses to sell liquor.

Rail Road Combinations—Raising Fare.—The editor of the Madison *Patriot*, writing from Detroit, under date of May 1st, says:

> All the Railroads have combined to raise the price of fare and freight. This caused steamboat owners to mature plans for a daily line of steamers around the lakes, until the Grand Haven road is completed, well knowing that those who are not in too great a hurry, will prefer a pleasant trip around the lakes, rather than submit to a too great combination tariff. Yankee spirit will have more than one string to the bow at any rate, and at last all things will be brought to a judicious level. It is estimated that the rise in railroad tariffs will bleed the West this year to the tune of *one and a half million of dollars!*

This raising of the fare on the Rail Roads will give the new Collingwood Line, just about to go into operation, a first-rate chance to secure a good share of the travel. Let them fix upon a moderate tariff of prices and their boats from this Lake will run full all the while.

Rum Afloat.—Capt. Hall, of the ship Natchez, at New Bedford, reports having spoken the British steamer Brisbane from Glasgow, 52 days, for Sydney, N. S. W., on the 25th ult., in lat. 6, S. lon. 34 40 W. Her captain had been drunk all the time since leaving port, had lost his reckoning, and the vessel had no steam up, and was drifting 10 or 15 miles to leeward every day.

Put Back.—The propeller *Ogdensburg*, which cleared for Oswego a week since, was turned back from Port Washington on Saturday, having burned out her flues. It look like very careless inspection by the government officers. She was brought back by the Prop. *Prairie State*, of the same line.

### Know Nothing State Council.

The Know Nothing State Council has been in session for the past two days at Harmony Hall in this city. Nearly two hundred delegates from various portions of the State, have been in attendance.

We understand they had a very stormy time yesterday afternoon. The Council is divided on the Jonathan and Sam question. The Jonathans, who were first started in this city by a gentleman who was a candidate for a high official position, at the late city election, appear to be in the ascendant.

The Sams are anti-foreign and anti-Catholic. The Jonathans are anti-slavery, but not *against* foreigners. They will admit all foreigners who disavow temporal allegiance to the Pope.

The Sams are backed up by Judge Douglas, who was yesterday visited by a large number of the members of the order of proslavery tendencies, who are delegates from the Southern part of the State. He evinces a great interest in the progress of Sam, on account of what that gentleman has already done in making Kansas a slave State.

The Jonathans, however are taking the lead in this city. Already large numbers of Germans, English, Scotch and Irish have joined them, and they promised to swallow up Sam completely, who is now chiefly supported by old Hunker Whigs, old Hunker Democrats, and old fogies generally, with Judge Douglas to cement the whole if possible into one mass in order to revenge himself upon the foreigners, who are instinctively opposed to his pro-slavery principles, and who can never be got to sanction the iniquity of making slave States out of soil once consecrated to freedom.—[Chicago Democrat May 3rd.

Generous Fidelity.—Our readers generally know that last week was consumed the Railroad Bridge at Painesville, Ohio, which viaduct across the deep valley at that point, passes the immense travel and traffic of the South Shore line of Roads. The fire took place in the night. The Bridge was at points 80 feet high. While the vast crowd collected at the Depot was discussing and bewailing the calamity, a man engaged in gravelling the Road, named John Casement, hurriedly demanded a lantern. One was found and lighted, and snatched by Casement, who ran down the bank into the valley, and disappeared. He ran nearly a mile, to the short curve beyond the Eastern end of the ruined Bridge. There he took his stand, and emptying his pockets of letters, newspaper scraps, and other paper, he lighted them and waved them in the air. Casement knew that two freight trains were coming from the East. Soon their lanterns blazed on the track. He signalled them again with burning paper. The Engineers did not respond with their whistles. The man's paper was exhausted. With ready wit he drew a linen handkerchief from his pocket, and set it ablaze and waved it. The Engineers saw the warning, and heeded it just in time to save their heavy trains from plunging off the 40-feet abutment, into dreadful ruin. Not to speak of the value of the human life saved by this act of generous fidelity to a Corporation, with which he was connected only as a gravel contractor, Casement rescued from instant destruction over $50,000 worth of property.

Brethren of the Press, pass John Casement around.—[Buffalo Democracy.

☞ New buildings are going up all over our city, and old ones are being removed to give place to other new ones.

The new School House, now being built at an expense to the city of $5,000, will be an ornament and a credit to our city.

The new brick Hotel which is being erected on the corner of Eighth street and New York Avenue, will be a substantial structure and an ornament to that pleasant portion of our city.

The city is growing apace, not rapidly, but steadily and permanently. Property is constantly advancing in price, and now is the time for capitalists to invest money and double it in a short time. Every building in the city is occupied, and there is hardly a tenement to be had for either love or money. In a word, every thing betokens prosperity.—[Sheboygan Journal.

Growth of Whitewater.—Arrangements for the completion during this season of new stores, and nearly all of them three stories in height, have been made by Messrs. G. H. Smith and Co. C. E. Curtice, and Marsh and Co., Co., on Main St. and in the neighborhood of the Depot. Mr. Everts is putting up a frame store, and Mr. Thomas Webb has a large stone blacksmith shop under way, and we understand that Messrs. Hall and Co. intend to enlarge their building,—while out towards that region where the town and country blend, acres are fast changing into lots, and by about a weeks handling of the hammer and planes lots are transformed into dwellings and appurtenances.—[Whitewater Gazette.

Our Piers.—Our enterprising warehouse men have been busy repairing their respective Piers, and have them now as good as new, and ready for the summer's business. The storms of the last winter proved pretty severe on the piers, and all three of them were considerably damaged. But the proprietors were not men to suffer them long to remain in a dilapidated condition. They are probably now in as good condition for the shipping business as ever they were. We understand that the winter storms have considerably deepened the water around the piers.—Kenosha Telegraph.

Vessel Wrecked.—The schooner *Saratoga*, in attempting to make the piers in the heavy weather of Wednesday evening, went on to the beach north of the harbor, and being an old vessel, went to pieces rapidly. She was owned by Capt. Igo, her master, but he was not on her this trip, being at home sick. She was a fine vessel, and a crack sailer in her best days.—[Chicago Dem. Press, May 4.

An American Sentiment.—George Washington said:

> "The bosom of America is open to receive, not only the opulent and respectable stranger, but the oppressed and persecuted of all nations and all religions, whom we shall welcome to a participation in all rights and privileges."

It is well for Washington that he did not live till 1855. Such sentiments now, would have hung him in effigy.—[Albany Journal.

☞ We copy this week, from the Milwaukee *Sentinel*, the 8th letter of Volney French, Esq., of this city, now travelling in Europe. Mr French writes a very readable account of the sights he sees, and the impressions they make upon him.—[Kenosha Telegraph.

This compliment is well deserved. The letters of Mr. French are graphic, original and interesting. We are glad too, to know that they are appreciated by our readers.

Tidal Phenomenon on the Lakes—Storm at Owen Sound.—A phenomenon similar to that which occurred on both sides of Lake Ontario on the 18th ult., took place on Lake Huron on the same day. The Owen Sound *Comet*, says:—"In this bay, the water rose about nine feet, and immediately fell ten feet below its usual level, so much so that the the bottom of the was dry enough to allow a man to cross to the Indian village."

The storm at Owen Sound on the day of this phenomenon was very severe. Vessels were broken from their moorings, piers were displaced, and twenty-five houses and barns were unroofed or blown down. Hail stones were picked up measuring from four to five inches in circumference.

Wheat.—On Saturday last Messrs Clark & Thomas paid $1,76 for a load of prime winter wheat, and $1,60 for a load of club and Rio Grande and spring. Mr. W. H. Allen, same day, paid $1,75 for a load of red and white winter wheat, and $1,60 for a load of club and Rio Grande spring. These are the highest prices ever paid in Beloit.—[Beloit Journal.

## CITY MATTERS.

Lumber for the Country.—Seven vessels were discharging lumber at the railroad dock on Saturday afternoon, and another one just hauling up into the Menomonee. The great demand for lumber in the country is at once an indication and the result of the great amount of building going on in every part of the interior of the State.

Another.—The schr. *Hagar*, another of our winter bound fleet, and which went into Beaver Harbor leaking, late last fall, and wintered among the Mormons, *arrived* on Saturday. She brings 150 tons iron for the Lake Shore R. R.

Wool Shipped.—The prop. *Mayflower* took on Saturday, 21,574 lbs. wool for Buffalo, from Wells & Hill, and the prop. *Forest City* 2000 lbs. from Wheeler & Co.

House at Auction.—Rooney sells this morning the house on Maine street, belonging to the estate of the late Thomas Burns.

U. S. Dist. Court.—The May term of this Court commences to-day.

Circuit Court.—The Circuit Court, Judge Hubbell presiding, commences its session this morning.

Up the River.—The large barque *Great West*, was towed up the river on Saturday morning, to discharge her deckload of shingles at Hibbard & Luce's dock. After getting through Walkers Pt. Bridge she touched ground when near Bigby's warehouse on the west side, and was obliged to discharge the deck load at that dock.

The Rush of Travel.—Three Steamboats, the *Cleveland*, *Arctic* and *Pacific*, arrived here from Chicago, on Friday, and two, the *Cleveland* and *Traveller*, on Saturday, all loaded down with passengers, luggage and freight. Between 800 and 1000 persons must have been landed at our port during the two days.

Pianos.—Prof. Hempsted.—We invite attention to the advertisement of Mr. Hempsted of the Pianos from celebrated Houses for which he is the agent. A *house*, now-a-days, is not a house without a piano, and it is well to know where one can get the best. No one can go astray when he calls on Mr. Hempsted for an instrument. He is an "institution" of the city, well established, and appreciated.

Railroad Appointment.—We are glad to learn that Mr. S. S. Merrill has been appointed Assistant Superintendent on the Milwaukee & Mississippi R. R.

Mr. Merrill has been until last season, upon the road from its opening. As a conductor, faithful, prompt, and courteous, he was very popular, and made many friends who will rejoice to see him in a more responsible situation.

Removal.—The Sabbath School Depository is removed to the corner of East Water and Michigan Street, 2d floor, where Mr. Vail, the agent of the American Sunday School Union, will be found ready to *donate* in part to the *truly needy*, and sell at catalogue prices to those who wish to purchase.

Brick.—See the card of Messrs Wilson & Besley, manufacturers of brick, in the 4th ward.—They will have their hands full of business during the coming season.

### Flanders vs. the M. & M. Railroad.

*To the Editors of the Sentinel:*

Perceiving in your paper a notice of the trial in the case of Flanders & Co., vs. the M. & M. Railroad Co., we wish to correct a wrong impression which such a notice was calculated to give. The substantial question at issue was the *right* of the company to exclude from the cars, agents of the plaintiff's, on account of their employment. The question of amount of damages was only incidental, and inasmuch as the two agents swore that when they went on to the cars it was without particular business for the plaintiffs, and with the simple design of returning, if not removed, the Court decided that we could recover only for the actual injury to our business, the remaining right being in the agents themselves. It will be seen (although our recollection of the facts differs from the witnesses mentioned) that the question of damages was somewhat narrowed down. Yet the decision was that the Company had committed a wrong to Flanders & Co.—had ejected their agents without right. If the small amount of the verdict affords a matter of consolation to the Company, it is that kind of pleasure which a man derives from an escape of just punishment, deserved by his conduct.—The jury (as we are informed by one of them) on the first ballot stood as follows—two for giving to the plaintiff $5000, two for giving $3000 two do $2000, and two for giving $1000—while four were for the defendants. The jury were out all night, and the result was produced by the desire not to have a disagreement for a second time, so strongly expressed by the Court, and counsel.—The verdict does carry costs, inasmuch as a Justice has no jurisdiction. For ourselves we can only say that the vindication of a right of vital importance to the public is ample satisfaction for all our trouble and expence in the premises.

A. O. Flanders.

### THE CONFERENCE POLKA.

*From Le Diable a Quatre (Point.)*

Chorus of the Orchestra:———"have written to consult their respective Governments."

Write off, Titoff, fiddle oddle lay,
*You don't know what the Czar will say?*
His Councils votes he has to poll
Ere giving up Sebastopol!
Write off, Titoff, fiddle oddle lay,
You don't know what the Czar will say.

Bustle, Russell, fiddle oddle lay,
*You don't know what Lord Pam will say?*
Yet John Bull, in his farmer's tone,
Grumbles at dawdling Palmerston.
Bustle, Russell, fiddle oddle lay,
You don't know what Lord Pam will say.

You're canny, Bourqueney, fiddle oddle lay,
*You don't know what L. N. will say?*
Already at the Tuileries
There's chafing at these fooleries.
You're canny, Bourqeney, fiddle oddle lay,
You don't know what L. N. will say.

Do all, Buol, fiddle oddle lay,
*You don't know what your Court will say?*
Acting frankly's worse than senna,
Rhubarb, jalap, to Vienna.
Do all, Buol, fiddle oddle lay,
You don't know what your Court will say.

All lies, Allies, fiddle oddle lay,
This is what Europe means to say.
Hang your higgling, hold your haggling;
Leave it to Canrobert and Raglan;
Juggling talk will not end such fray,
*Ram your guns, and fire away!*

"Nautical Magazine" for May. We have received the May number of this excellent monthly, published by Griffiths & Bates, 115 and 117 Nassau street, N. Y. It contains a vast amount of interesting and useful information for those who go down to the sea (or the lakes) in ships, and ought to be extensively circulated in our lake ports.

The Glover Rescue Case.—The *News* learns, doubtless "by authority," that in the case of S. M. Booth, discharged on Habeas Corpus from the custody of Sheriff Conover, a writ of error has issued out of the Supreme Court of the United States to the Supreme Court of this State.

Vessel Sale.—The barque Ocean Wave was sold a few days since by Julius White, Esq., of this city, to Mr. Cady, of Milwaukee, for $13,-0[illegible]0.—[Chicago Democrat.

Look out for the Grapes!—The Detroit *Advertiser* says that a small steel-colored bug is busy eating into the buds of the grape vines in that vicinity.

Great Tr—Story.—The Manitowoc *Tribune* has the following:

> Schr. *Clipper City*, Capt. Jos. Edwards Jr., owned by Platt & Bro., of this village, made the run from Chicago on her last trip in *five hours*.—The distance is 90 miles, and incredible as the statement may appear, we have *implicit* confidence in the veracity of our informants.

We are prepared to believe almost anything of the speed of the *Clipper City*, but as the distance from Chicago to Manitowoc is about 160 miles as the bird flies, we are afraid that our friends of the *Tribune* will have to add about 15 minutes to the time of the trip.

For the Sentinel.

Mr. Editor:—The following Resolutions were presented and unanimously adopted at a meeting of the Reading Room Association, connected with Lawrence University, held on the evening of the 26th inst:

Resolved, That as members of the Reading Room Association, we feel deeply grateful to those Editors and Publishers, to whose liberality we are indebted to many for the valuable publications, which now grace the desks of our Reading Room, and we hereby tender them our sincere thanks.

*Resolved,* That our Corresponding Secretary be, and is hereby instructed, to forward a copy of this resolution to the offices of the several papers, a copy of which has been donated to this Association.

G. G. Dains,
Corresponding Secretary.

Appleton, Wis., April 28th, 1855.

☞ The Buffalo Republic says a German citizen on Batavia street "caves in" to the requirements of the recently enacted law, by hanging his bar in black, on which is inscribed, "Nix lager bier." "De glory of Hans is debarted."

☞ The list of passengers by the steamship *Pacific*, as published in the New York *Express* for Wednesday last, contains, among other names, that of "The Honorable General Augustus Caesar Hannibal Dodge, Minister Plenipotentiary "to the Court of her Catholic Majesty, Isabella "II, Queen of Spain," &c.

Filibusterism Shocked.—The latest news from Havana is "stunner" for Young America. Commodore McAuley, whose guns were expected (by the mad-caps) to blow Spanish cruisers out of the Gulf, and knock the Morro into the middle of next week, was last seen *tete-a-tete* with General Concha, *reviewing* Spanish troops. The fair inference, if not the settled fact, is, that the gallant Commodore went out instructed to settle little matters of difference, and found no difficulty in doing so in a peaceable manner, which is far the best way for good Christians to deal, in an age of bibles, printing presses, and unexampled commercial enterprise. Peace, at any price, will be a bitter pill to the fellows who get up Park meetings; but war, short of the weightiest reasons, would be far more bitter, shameful and degrading to this nation.—[New York Mirror.

A Just Judge.—Hon. A. D. Smith, of Wisconsin, the Judge, upon whom we are in part dependant for that righteous decision of the Supreme Court of his State upon the Fugitive Slave Law, was in this city yesterday, looking well and hearty. As a history-maker, the Judge will be conspicuous in the future of this Republic, not that he will write a book, but that he will do what will make others write.—[Chicago Tribune, 2d inst.

An Outrage.—Mr. Sans has entered complaint against a set of rowdies, who, not long since, after singing, and otherwise making rowdyish demonstrations around his house while himself was absent from home, threw a large stone through a window into the room occupied by his wife, and a child in the cradle. The stone broke the window, made a hole through the curtain, and fell but a few inches from the head of the sleeping infant.

Mr. Sans has never injured his fellow citizens, nor spoken ill of any one to excite their feelings. He is a firm friend of the temperance cause, and this in him some of his countrymen condemn.—His influence is being felt among them in this city and vicinity.—[Watertown Chron.

☞ Richard Yates of San Francisco, formerly of Albany, where he was cashier of the State Bank, was found in his room, March 28th, dead, grasping a pistol, a ball from which had entered his brain. A letter from a brother in Albany was found upon his body, which enclosed a notice of an application for divorce upon the part of his wife, formerly Miss Margaret Mancius of Albany. What was the cause of domestic difficulties, is not known.

Entirely Cleared Out.—All the liquor shops of Beloit are closed, and our new supervisors are determined to grant no licenses duirng their term of office.—[Beloit Journal.

## DIED.

In this city this morning, of Consumption, Mr. Thomas C. Horner, in the 41st year of his age.

Mr. Horner was born in Princeton, N. J., July 3, 1814. He was the youngest of nine children only one a sister, survives him, five of them dying with the same dread disease that has taken our friend to an early grave.

In 1832, Mr. H. removed to Milwaukee, and in 1846 to this city, which has since been his home.—[Sheboygan Journal.

MARINE INTELLIGENCE.

The Collingwood Line.—The *Lady Elgin* was to leave Buffalo on Saturday for this lake, and will take her place at once in the Ontario & Simcoe R. R. Line.

The brig *Kirk White* cleared from Buffalo for this port on Wednesday last.

☞ Brig *Acadia* cleared from Oswego, April 30th with 146,179 feet Lumber, for D. McCollum, Milwaukee.

Down Freight.—The *Michigan* took out, on her down trip on Tuesday, 1031 bbls flour, 400 do fish, 114 hides, 110 bags potatoes, and a lot of miscellaneous freight. The most of the flour was sent to New York, and was from the mills of Cronkhite & Burdick of Neenah.—*Green Bay Adv. 3d inst.*

☞ The barque *Badger State*, Capt. Shorts, from Milwaukee, passed down the river yesterday without stopping. The *Badger State* was the last sail vessel which passed through the straits of Mackinac last fall, and is the first to pass this spring. We believe she was loaded with grain from Milwaukee to Buffalo.—*Detroit Free Press May 3d.*

A Diversion.—The Oswego Times states that "considerable shipments of flour, grain, peas, &c., are being made north, since the opening of the Upper St. Lawrence. A cargo of 3,300 bbls of flour landed here, consigned to New York, has been countermanded, and is reshipped for Montreal. Other parcels of flour, wheat, corn and peas are being re-shiped for Eastern Canada and Northern New England, to go by the St. Lawrence, the Cape Vincent and Ogdensburg Railroads."

Entrance of the Harbor—Shoal Water.—One of the vessels which entered the harbor yesterday drawing seven and one-half feet water thumped her keel twice quite hard about 150 feet south of the end of the North Pier, the sea being heavy and the vessel a little by the stern. Other vessels, drawing more water have passed in and out nearly the same course without touching. This argues the formation of a bar or shoal in the channel, which should be examined the first still day, and its position exactly located with a view to its removal if necessary.—*Chicago Democrat Press.*

Freights at Detroit.—There is nothing new to report in freights. The Dunkirk propellers are taking flour to Dunkirk, from whence it is taken to Buffalo by the State Line Railroad, at 40 cents from this port to Buffalo. Contracts have been made to deliver 250 tons of ashes in New York from this port via the New York and Erie Railroad, at $10 per ton. To Montreal we hear of some freights on flour being agreed for at 60 cents. To Ogdensburgh agreements have been made with the regular propeller line for second trip, for 75 cents on flour. The barque E. A. Roelofson is loading with corn for Cape Vincent, but we have not yet heard of the rate.—*Detroit Advertiser.*

Salt Manufacture.—The Syracuse *Journal* of Monday says the Salt Manufacturers are getting ready for starting up their Blocks. Several Blocks will fire up to-day. At Salina, Syracuse and Geddes they cannot commence operations untill the canal is navigable, as the pumps are carried by water from the canal. The minimum price this season will be $1,30 per barrel.

## COMMERCIAL.

## THE MARKETS.

Office of the Daily Sentinel,
Milwaukee, May 7, 1855.

REC'D BY MIL. & MISS. R. R., May 5:—248 bbls 113 sacks flour, 4956 bus wheat, 369 do potatoes, 16 do barley, 584 do oats, 393 do corn, 94 do rye, 20 bags corn meal, 4 kegs butter, 1459 lbs hides, 15 bbls eggs, 14 bbls hams, 12 bbls pork, 7 sheep.

REC'D BY MIL. & WAT. R. R.:—174 bbls 38 sacks flour, 939 do wheat 237 do, potatoes, 30 do barley, 5 bbls oil, 11 hogs 2 cars do, 6 bbls eggs, 1000 lbs hides, 7 kegs, butter.

We note a decline on Saturday to some extent, from from previous rates. Flour was held at 8,00 for No. 1 with no transactions to our knowledge, though several buyers from the east were in the market "looking about." It is understood that no great portion of the produce in store here remains not drawn on at the East. Shipped on Saturday 5300 bbls.

Wheat—better receipts yesterday, but prices lower, and 1,42@1,50 was the average for spring wheat, winter selling at 1,60@1,65. We learn that about 40,00 bus already engaged to go to Cleveland.

Oats—in better supply, and not active, at 50a53c.

Rye 90c. Barley 1,00a1,02.

Potatoes declining rapidly, sales being made at 56a60.

Freights.—The schrs. *E. G. Grey*, *E. Cramer* and *Milwaukee Belle* take wheat to Buffalo at 16c, and the schr. *Melrose* wheat to Oswego at the same figure. All of these are old charters.

### Oswego Market, April. 30.

There is still an active demand for flour and grain in the market. We hear of sales of 700 bbls flour at $9,75 @$10, 2s for Canadian.

We hear of sales of 3,500 bus Chicago wheat at $1.95 In corn we hear of a sale of 7,000 bus at 90c to arrive.

### Chicago Market—May 4.

Favorable news to Grain holders was brought by the Atlantic's arrival, and although money is extremely tight, and storage for Grain not to be had, there was a better feeling in the market to-day. A good inquiry was made for wheat in the afternoon, and a few thousand bushels changed hands in the forenoon, at $1 50 in store. Shippers were anxious to engage vessels, but unwilling to pay the freights asked, viz—16½c for Corn to Buffalo. We heard of the schooner G. M. Chapman being chartered for wheat to Buffalo at 20c. A couple of Canadian steamers arrived in port to-day from Kingston, which we learn are to carry cargo of Grain to Quebec from here. About 50 bbls of Flour sold at $9 25, and 30 bbls of superfine brought $9, while $7 75 was paid for 20 bbls of prime.—Private dispatches from St. Louis represent a decline there in the *price of Barley and other grain*. *Barley is somewhat* dull here at $1,25 for extra. Oats have a better feeling, and go readily at 48c in warehouse.

The Government Stock Bank.—We learn that the whole amount of Government Stock Bank Note returns, to the Treasurer's office up to Saturday, was $95 319 showing an over issue of nearly *sixty thousand dollars*, for this institution, which was under the care of the late State Administration. What an honest Iago—*Det. Adv.*

Austria has definitely refused to second the humiliating demands of the Western Powers on the Czar, and it is now generally confessed, though reluctantly, that the utmost that can be expected from Austria is the maintenance of a strict neutrality

WAYLAND UNIVERSITY —The contract for building the first dormitory edifice of this institution has been let to Alfred Loomis, Esq, of this village, for $10,000. It is to be built of brick, three stories high, and to be completed in time for school next winter —[Beaver Dam Republican.

MURDER — Daniel Hall, an Oneida chief of the first Christian party, was killed on Saturday evening last, by Peter Bear, another Oneida Indian He was stabbed two or three times with a large knife and left in the road, where he was found the next morning, about 3 miles from this place. TRADE —Never was the necessity for a Rail Road to Mineral Point more apparent that at the present time. Several extra stage coaches arrive in town daily, literally filled with passengers, all the livery teams in the place are constantly employed in conveying travelers to and from Warren and other points, while a large number of private teams are often used for a similar purpose The spring arrivals of Merchandise, &c, have but just commenced, and great lack of teams for that purpose is apparent All our hotels are filled to overflowing, and business in every department exhibits an activity unusual in this region notwithstanding the hurrying season among the farming community —[Mineral Point Tribune

## Laugh and Grow Fat.

A glance at the Young America—great novelty—four ladies with ponsy balls in hand, each intent on making the best strike—down goes the poneys furiously on the smooth glassy alleys, scattering the pins triumphantly on their course Then comes the laugh that makes the languid frame all joy and gladness, and the whole system vibrates with unwonted vigor This exercise is far superior to any other, for developing the system physically with renewed energy *Ladies* will please bear in mind that orders for the use of the alleys, should be left at least four hours previous to the time of coming

# PATENT MEDICINE.

## AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Billious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails, besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms and Bilious derangements They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character, as to forbid the suspicion of untruth

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct A A HAYES, Analytical Chemist of Boston and State Assayer of Massachusetts, whose high professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C WINTHROP, Ex Speaker of the House of Representatives

ABBOTT LAWRENCE, Minister Plen to England

JOHN B FITZPATRICK Catholic Bishop of Boston, also

Dr J R CHILTON, Practical Chemist of New York City, endorsed by

Hon W. L MARCY, Secretary of State

WM B ASTOR, the richest man in America

S LELAND & Co, Proprietors of the Metropolitan Hotel, and others

Did space permit we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial

These Pills the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies, extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process The reason is perfectly obvious. While by the old mode of composition every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind the curative virtues only being retained Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting wherever they exist, such derangements as are the first origin of disease

In the U. S. Circuit Court yesterday, in the case of McCormick vs. Seymour & Morgan, another Reaping Machine, case the defendants read affidavits to show that they no longer made machines similar to those patented by McCormick, and an order was made by the court enjoining them from manufacturing such machines.

### The Nicaragua Expedition.

New York, May 5.

Ex-consul Fabens obtained his bail yesterday, and was released. Mr. Newcomb of the St. Nicholas Hotel, and ex-Alderman Redmond became his security in $10,000 each.

Mayor Wood issued an order to the police, requiring special diligence in the arrest of disorderly persons on the Sabbath. It was called out by the increased sales of liquor on that day.

Last evening the Cincinnati police arrived in this city, having in charge Lorenzo Chapin, Amasa Chapin and Benjamin Earl, indicted with several others for having defrauded the Atlantic Mutual Insurance Company, by the burning of the steamer *Martha Washington*. They were committed to the Tombs.

Poughkeepsie, May 5.

The livery stable of James Hill, and two dwelling houses adjoining were destroyed by fire last night. Fifteen horses perished in the flames.—Loss $8000.

Columbia, S. C., May 5.

After a protracted drought copious rains have at last fallen throughout Georgia, Alabama and South Carolina.

New York, May 5.

The steamer St. Louis sailed at noon to-day for Havre and Southampton, with 96 passengers and $148,151 in specie.

### Later from Cuba.

New Orleans, May 4.

The steamer Cahawba arrived here with Havana dates to the 1st inst. News unimportant. McCullough, of New Orleans had been released from prison.

The steamer San Jacinto was still in port, but would leave on a cruise, on the 2d instant. The Cyane and Falmouth had not arrived.

### Further by the Atlantic.

Austria has definitely refused to second the humiliating demands of the Western Powers on the Czar, and it is now generally confessed, though reluctantly, that the utmost that can be expected from Austria is the maintenance of a strict neutrality.

Lord John Russell and Drouyn de l'Huys had been ordered home, and only awaited the conclusion of the eleventh or final conference. In brief, the Vienna conferences so far as appears, have failed, and an arrangement on the guaranty can only be come to by large and mutual concessions.

Affairs are considerably more active in the Crimea.

The Allied fleet lay in line of battle off the harbor of Sebastopol. Fifteen thousand of Omar Pasha's troops had been brought to Kamelsh to join in the assault.

### LATEST BY TELEGRAPH.

Gen. Canrobert telegraphs on the 17th that the firing continued unabated, chiefly by the artillery, but the lines were still operating. Another report says the loss of life has been very great on both sides, and a council of war had been held, in which it was decided to continue the fire for a week longer, and then make the assault.

WAYLAND UNIVERSITY.—The contract for building the first dormitory edifice of this institution has been let to Alfred Loomis, Esq., of this village, for $10,030. It is to be built of brick, three stories high, and to be completed in time for school next winter.—[Beaver Dam Republican.

---

MURDER.—Daniel Hill, an Oneida chief of the first Christian party, was killed on Saturday evening last, by Peter Bear, another Oneida Indian. He was stabbed two or three times with a large knife, and left in the road, where he was found the next morning, about 3 miles from this place. The Indians have succeeded in capturing Bear, and have sent word to our citizens, that unless they take him in charge, they (the Indians) will hang him.—[Green Bay Advocate.

---

TRAVEL.—Never was the necessity for a Rail Road to Mineral Point more apparent that at the present time. Several extra stage coaches arrive in town daily, literally filled with passengers, all the livery teams in the place are constantly employed in conveying travelers to and from Warren and other points, while a large number of private teams are often used for a similar purpose. The Spring arrivals of Merchandize, &c., have but just commenced, and great lack of teams for that purpose is apparent. All our hotels are filled to overflowing, and business in every department exhibits an activity unusual in this region notwithstanding the hurrying season among the farming community.—[Mineral Point Tribune.

Laugh and Grow Fat.
A glance at the Young America—great novelty—four ladies with ponny balls in hand, each intent on making the best strike—down goes the ponnys furiously on the smooth glossy alleys, scattering the pins triumphantly on their course. Then comes the laugh that makes the landguid frame all joy and gladness, and the whole system vibrates with unwonted vigor. This exercise is far superior to any other, for developing the system physically with renewed energy. Ladies will please bear in mind that orders for the use of the alleys, should be left at least four hours previous to the time of coming.

PATENT MEDICINES.

AYER'S PILLS.
A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character, as to forbid the suspicion of untruth.
Among the eminent gentlemen who have testified in favor of these Pills, we may mention
Doct. A. A. HAYES, Analytical Chemist of Boston and State Assayer of Massachusetts, whose high professional character is endorsed by the—
Hon. EDWARD EVERETT, Senator of the United States.
ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.
ABBOTT LAWRENCE, Minister Plen. to England.
JOHN B. FITZPATRICK, Catholic Bishop of Boston; also
Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by
Hon. W. L. MARCY, Secretary of State.
WM. B. ASTOR, the richest man in America.
S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.
Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.
These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford.—They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity, and combined together in such a manner as to ensure the best results. This system of composition for medicines, has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.
As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.
Of all the Patent Medicines that are offered, how few would be taken if their composition was known.—Their life consists in their mystery. I have no mysteries.
The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.
They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

PRACTICAL AND ANALYTICAL CHEMIST,

RHODES'
FEVER AND AGUE CURE,
OR,
Nature's Infallible Specific.
FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chill and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Miasma or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the greatest discovery in medicine ever made.
This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.
The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.
It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.
It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.
It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.
Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.
One or two bottles will answer for ordinary cases, some may require more.
Directions printed in German, French and Spanish, accompany each bottle.
Price One Dollar. Liberal discounts made to the trade.
Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

### EVARTS' Patent Shingle Mill.

### EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,
CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

### Lots in Sherman's Addition

[illegible]

THE FOLLOWING LOTS IN SHERMAN'S ADDItion, for sale. The titles to all these Lots are good. The difficulty concerning the title of said Lots has been removed by a decision of the United States Court; therefore there will be no more question about the title.

Now for another fact—A more beautiful prospect can not be found than Sherman's Addition. You have a full view of the City and Lake; for health it is not to be surpassed; the soil is rich, and there is no reason why property in Sherman's Addition should not command as good prices as in the First Ward; and it will if only a few individuals will commence and build fine houses. I, for one, will sell my present positions, and would agree to build in Sherman's Addition, Second Ward.

**PIANO FORTE WARE-ROOM!**

**AMERICAN ACTION PIANO FORTES;**
Manufactured by GEORGE HEWS, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. GOTTSCHALK, to Mr HEWS, Agent at New York:

New York, Dec. 5, 1842.

MR. N. J. CURTISS:—

Dear Sir: Having had the pleasure of performing upon Geo Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, WILLIAM MASON:

MR. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

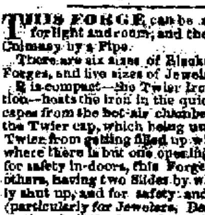
### QUEEN'S PATENT PORTABLE FORGE AND BELLOWS!



THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out-door work and for safety in-doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way; it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

## PATENT MEDICINES.

### THE AMERICAN'S FRIEND

### HOLLOWAY'S PILLS.

To the Citizens of the United States:—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY,

80, Corner of Ann and Nassau Streets, New York.

**THE BLOOD, LIVER AND BILIOUS COMPLAINTS**

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps, the most handsome in the World, at a certain period, lose their teeth and good looks while yet in the hey-day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and stomach in a healthy action, when life will flow smoothly. I say fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

**CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING.**

Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the soundest health.

These celebrated Pills are wonderfully efficacious in the following complaints:—

Ague
Asthma
Bilious Complaints
Blotches on the Skin
Bowel Complaints

Constipation of the Bowels

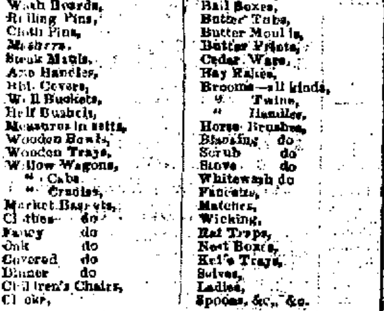
## EVARTS'
## Patent Shingle Mill.



EVARTS & BUTLER,
PROPRIETORS AND MANUFACTURERS,
CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill will be this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

A NEW
PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by George Hews, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. GOTTSCHALK, to Mr Hews, Agent at New York:

New York, Dec. 3, 1853.

MR. N. J. CURTISS:—

*Dear Sir:* Having had the pleasure of performing upon Geo. Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.

Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, WILLIAM MASON:

MR. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

## QUEEN'S PATENT
PORTABLE
FORGE
AND
BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes, of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot-air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out-door work and for safety in-doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way; it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

## PATENT MEDICINES.

## THE AMERICAN'S FRIEND

## HOLLOWAY'S PILLS.

*To the Citizens of the United States:*—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY,

80, *Corner of Ann and Nassau Streets, New York.*

THE BLOOD, LIVER AND BILIOUS COMPLAINTS

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps, the most handsome in the World, at a certain period, lose their teeth and good looks while yet in the hey-day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy action, when life will flow smoothly. I say fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING

Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the soundest health.

*These celebrated Pills are wonderfully efficacious in the following complaints:—*

- Ague
- Asthma
- Bilious Complaints
- Blotches on the Skin
- Bowel Complaints
- Colics
- Constipation of the Bowels
- Consumption
- Debility
- Dropsy
- Dysentery
